Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' process for the preparation of alkylated dihydroxybenzene is unobvious over the prior art of record because the prior art of record does not teach or suggest preparing alkylated dihydroxybenzene as presently claimed wherein a montmorillonite K-10 solid acid catalyst is use in the alkylating reaction. Also, since applicants have adequate support for the claimed montmorillonite K-10 acid catalyst and have stated on the record that the montmorillonite K-10 acid catalyst is what they intend to claim and the said montmorillonite K-10 acid catalyst is not the same as the "modified montmorillonite K-10" catalyst (as shown by Example 1 and Table 1) then the requirements under 35 USC 112, first and second paragraph has been met. All claims (6-9) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
